

Murringo Public School Wellbeing and Behaviour

Overview

Murringo Public School is committed to explicitly teaching and modelling positive behaviour and to supporting all students to be engaged with their learning.

Our goal is to inspire every child to thrive positively in the school community and beyond. We focus on promoting excellence, opportunity and success for every student, every day. We value and strive to develop respectful, responsible, and resilient learners in a caring learning community that fosters gratitude, empathy, and mindfulness.

Principles of positive behaviour support, trauma-informed practice, inclusive practice, and social emotional learning underpin our daily practice. High expectations for student behaviour are established and maintained through effective role modelling, explicit teaching, and planned responses.

To achieve our mission, key programs prioritised and valued by the school community are:

- PAX
- Restorative Practice
- Friends Resilience Programs
- Care Continuum

These programs prioritise social and emotional learning which supports good mental health, positive relationships and supports prevention of bullying.

Murringo Public School rejects all forms of bullying behaviours, including online (or cyber) bullying by maintaining a commitment to providing a safe, inclusive, and respectful learning community that promotes student wellbeing. Staff are committed to establishing evidence-based approaches and strategies that promote a positive climate where bullying is less likely to occur.

All members of the school community are active participants in building a welcoming school culture that values diversity and fosters positive relationships. A key component of a supportive school culture is building respectful relationships and an ethos that bullying is not accepted, in both online and offline environments. School staff actively respond to student bullying behaviour.

Partnership with parents and carers

Murringo Public School will partner with parents/carers in establishing expectations for engagement in developing and implementing student behaviour management and antibullying strategies, by:

- inviting parent/carer and student feedback through formal and informal means, such as school surveys, consulting with the P & C, formal and informal meetings and local AECG
- using concerns raised through complaints procedures to review school systems, data, and practices.

Murringo Public School will communicate these expectations to parents/carers through the school newsletter and school website. Our school proactively builds collaborative relationships with families and communities to create a shared understanding of how to support student learning, safety and wellbeing.

Behaviour Code for Students

NSW public schools are committed to providing safe, supportive and responsive learning environments for everyone. We teach and model the behaviours we value in our students.

The Behaviour Code for Students can be found at <https://education.nsw.gov.au/policy-library/policyprocedures/pd-2006-0316/pd-2006-0316-01>. This document, translated into multiple languages, is available here: [Behaviour code for students](#).

Whole school approach across the care continuum

Our school embeds student wellbeing and positive behaviour approaches and strategies in practices across the care continuum to promote positive behaviour and respond to behaviours of concern, including bullying and cyber-bullying behaviour.

These approaches and strategies are built on a foundation of evidence-based effective classroom practices that set the tone for engagement with learning and respectful relationships. These practices include:

- stating and explicitly teaching classroom expectations
- establishing predictable routines and procedures that are communicated clearly to students
- encouraging expected behaviour with positive feedback and reinforcement
- discouraging inappropriate behaviour
- providing active supervision of students
- maximising opportunities for active engagement with learning
- providing carefully sequenced engaging lessons that provide options for student choice
- differentiating learning content and tasks to meet the needs of all learners
- embedding opportunities to practice gratitude, empathy and mindfulness

Planned responses to positive appropriate behaviour, inappropriate behaviour and behaviours of concern, including bullying and cyber-bullying

Planned responses to behaviour that does not meet school expectations are either teacher or executive managed. Staff use their professional judgement, guided by a matrix of minor and major behaviours, in deciding whether a behaviour is teacher managed escalated to be managed by the principal. They should consider whether the behaviour poses a risk to the safety or wellbeing of the student or others. See Appendix 1.

A behaviour of concern is challenging, complex or unsafe behaviour that requires more persistent and intensive interventions. A behaviour of concern does not include low-level inappropriate or developmentally appropriate behaviour.

- **Teacher managed** – low level inappropriate behaviour is managed by teachers in the classroom and the playground. See Appendix 2.
- **Executive managed** – behaviour of concern is managed by school executive. See Appendix 3.

Corrective responses are recorded on Behaviour / wellbeing ITD system. These include:

Classroom	Non-classroom setting
<ul style="list-style-type: none"> • use of reset room • stay in at break to discuss/ complete work • conference • detention, reflection, community and restorative practices • communication with parent/carer. 	<ul style="list-style-type: none"> • time out of play • walk with teacher • detention, reflection community and restorative practices • communication with parent/carer.

Murringo Public School staff model, explicitly teach, recognise and reinforce positive student behaviour and behavioural expectations. PAX and The Friends Resilience Program consist of evidence-based strategies used daily by teachers to teach self-regulation, reduce impulsivity, increase focus and strengthen peer networks.

We acknowledge that not all students are encouraged by the same thing or in the same ways. Younger students may be more motivated by adult attention while older students are typically more motivated by peer attention, activities, privileges, or freedom. When learning new skills, students need immediate and frequent reinforcement and as they develop mastery they respond to intermittent and long-term reinforcement to maintain their social behavioural efforts.

The use of verbal and non-verbal specific positive feedback is the most powerful way to (see Appendix 4):

- help adults and learners to focus on positive social behaviour
- increase the likelihood that students will use the expected behaviours and skills in the future
- decrease unexpected behaviour and reduce the need for corrective responses
- enhance self-esteem and build an internal focus of control.

Prevention Responses to recognise and reinforce positive, inclusive and safe behaviour	Early Intervention Responses to minor inappropriate behaviour	Targeted/Individualised Responses to behaviours of concern
1. Behaviour expectations are taught and referred to regularly. Teachers model behaviours and provide opportunities for practice. Students are acknowledged for meeting school-wide expectations and rules.	1. Refer to school-wide expectations and/or emotional regulation visuals and/or supports so that the student can self-regulate.	1. Contact office to seek help from executive straight away if there is a risk. Otherwise notify student's stage supervisor or executive ASAP and before the end of the school day.
2. Verbal and non-verbal specific positive feedback is paired with a positive, tangible reinforcer in a school-wide continuum for acknowledging expected behaviour.	2. Use indirect responses including proximity, signals, non-verbal cues, ignore, attend, praise, redirect with specific corrective feedback.	2. Executive/CT to take immediate steps to restore safety and return the situation to calm by using appropriate strategies such as: redirecting to another area or activity, providing reassurance or

		offering choices. Incident review and planning is scheduled for a later time, determined by the context and nature of the incident.
<p>3. Non-tangible reinforcers include those that are:</p> <ul style="list-style-type: none"> • free and frequent <p>Tangible reinforcers include those that are:</p> <ul style="list-style-type: none"> • moderate and intermittent • significant and infrequent 	<p>3. Use direct responses e.g. rule reminder, re-teach, provide choice, scripted interventions, student conference. Students have an opportunity to meet the classroom/playground behaviour expectation before low-level consequence is applied.</p>	<p>3. Executive collects information and reviews the incident from multiple perspectives to determine next steps. Executive to record incident on School Bytes and contact parent/carer by phone. Executive/principal may consider further action e.g., formal caution or suspension.</p>
<p>4. Social emotional learning lessons are taught (The Resilience Project) weekly.</p>	<p>4. Students are provided time out in the classes allocated reset room to allow self-regulation and time for the class to continue work. On the playground students to walk and talk with teacher.</p>	<p>4. Refer to the school's Learning and Support Team considering current and previous behaviour data. Other actions may include completing a risk assessment and/or collaboratively developing a behaviour support/response plan.</p>
	<p>5. Teacher records on School Bytes by the end of the school day. Monitor and inform family as per Appendix 2. For some incidents, referral is made to the school's anti-racism contact officer (ARCO) or anti-bullying co-ordinator.</p>	
Teacher/parent contact	Teacher/parent contact	Teacher/parent contact
<p>Teacher contact through the parent portal or phone calls home are used to communicate student effort to meet expectations. Recognition awards for positive individual behaviour are given at weekly school assemblies.</p>	<p>Teacher contacts parents by phone when a range of corrective responses have not been successful, and student is required to access reset room. Individual planning and referral to Learning Support Team may be discussed.</p>	<p>Parent/carer contact is made by school executive to discuss any support and behaviour responses, including referral to the LST, school counsellor, outside agencies or Team Around a School.</p>

Responses to serious behaviours of concern

Responses for serious behaviours of concern, including students who display bullying behaviour, are recorded on School Bytes. These may include:

- review and document incident
- determine appropriate response/s, including supports for staff or other students impacted
- refer/monitor the student through the school learning and support team
- develop or review individual student support planning, including teaching positive replacement behaviour and making learning and environmental adjustments
- detention, reflection and restorative practices (listed below)

- liaise with Team Around a School for additional support or advice
- communication and collaboration with parents/carers (phone, email, parent portal, meeting)
- formal caution to suspend, suspension or expulsion.

The NSW Department of Education Student Behaviour policy and Suspension and Expulsion Procedures apply to all NSW public schools.

Responses to all behaviours of concern apply to student behaviour that occurs:

- at school
- on the way to and from school
- on school-endorsed activities that are off-site
- outside school hours and off school premises where there is a clear and close connection between the school and students' conduct
- when using social media, mobile devices and/or other technology involving another student or staff member.

Students or parents can report bullying to any staff member. NSW public school principals have the authority to take disciplinary action to address student behaviours that occur outside of school hours or school grounds, including cyberbullying. Students who have been bullied will be offered appropriate support, for example through the school counselling service.

Reporting and recording behaviours of concern

Staff will comply with reporting and responding processes outlined in the:

- Incident Notification and Response Policy
- Incident Notification and Response Procedures
- Student Behaviour policy and Suspension and Expulsion procedures.

Detention, reflection community and restorative practices

Toilet and food breaks are always included when withdrawal from free choice play at either break is planned as a response to behaviour. The maximum length of time will be appropriate to the age/developmental level of the student.

Strategy	When and how long?	Who coordinates?	How are these recorded?
Classroom Restoration – an informal debriefing after repeated minor behaviours of concern in the classroom/other setting.	Next appropriate break.	Teacher	Documented in School Bytes
Reflection – a structured debriefing and planning after a crisis event or behaviour of concern with an individual student (reflection)	Next appropriate break or day at	Assistant Principal/Principal	Documented in School Bytes

Strategy	When and how long?	Who coordinates?	How are these recorded?
	either lunch or recess break		
Alternate play plan – withdrawal from free choice play and re-allocation to office, library, or classroom for supervised play following breach in behaviour. The purpose is to assist the student to achieve the desired behaviour, to reflect on their behaviour and make positive choices – individual or group (detention)	Next break	Assistant Principal/Principal	Documented in School Bytes
Restorative practice – <u>peer mediation</u> or <u>circles</u> in groups	Scheduled for either lunch or recess break	Assistant Principal/Principal	Documented in School Bytes
